

Spring 2016

Summer Adventures

We would like to hear from You!

Are you working on a great idea regarding your summer adventure?

Let's grab a coffee and you can tell us about it.

We know of spectacular cafes with memorable vistas...

Please do **email** us any suggestions, ideas or advice in making Heli Canada Adventures your helicopter vacation company. Thank you in advance.

To book, just drop us a line at **info@helicanada.com** or **1-888-837-5417**.

Thank you all for an amazing winter of skiing - WOW! December to mid March did not have more than 4 clear days in a row, making the skiing fantastic. We taught avalanche courses, ski tour guided, cat skied and heli skied.

We did these adventures with good to excellent snow quality 85 percent of the time - many smiles visible at re groups, whoops and OH YAs heard always. So many 'Best Days' declared daily.... The snow pack was also more user friendly than not this winter. There were, and still are, a few layers of concern that we tracked all season long. How ever, most of the days, we were skiing the steeps and deeps.

Let's do it again after coffee next winter!

We have changed gears from winter adventures to summer adventures and We Are Excited! Just imagine your summer adventure of heli hiking, heli mountaineering, glacier trekking, heli picnics and many more possibilities to enjoy here in Revelstoke. All of our adventures are suitable for families, couples and singles, from the novice

New Websites:

We would love to get feed back from our guests on all fronts of our business. This is how we learn and improve. Please do take a few minutes to let us know what, where and how we can improve.

We put up new websites this winter. How are they for finding information? Ease of use? Too wordy or not enough words? Would you like to see the menu on each page?

Would you like us to come and do a presentation to your club or group?

We love to travel and talk about our adventures! We have had so much fun in the past sharing our adventures to groups in their home towns.

If you would like us to come to your next meeting to talk about any of our summer adventures, please do call and ask. We would love to inspire your group.

We find several weeks notice is best but we have been out the door in a day!

Let is know please.

adventurer to the seasoned veteran. Of course, we want to hear Your Idea of a helicopter vacation - call us and tell us today!

We have a feeling that it maybe an early hiking season in the alpine, allowing us to start in the last week of June this year. Landmarks in the operating tenure that are usually covered by snow at this time of the year, are poking out several weeks early.

Early starts in the past in late June of heli hiking and heli mountaineering have been beautiful. A reminder that the peak wildflower season is the last two weeks in July and the first two weeks in August - general-

ly! September is a fantastic month for mountain photography - clear stable air masses prevail - generally! The Glacier Lilies, striking and beautiful wildflowers, are out in the beginning of July as the winter dress recedes towards the mountain tops.

Walking on glaciers as ancient as time is magical and mystical every time - come see! Bottom line, July through the end of October adventures have provided lasting memories for many here at HCA. Come make Your memories this summer with us!
